REPORT OF THE SCHOOL DEPARTMENT

Kennebunk, Maine, February 1, 1946.

To the Superintending School Committee of Kennebunk:

I submit to you at this time the annual report of the Superintendent of Schools.

The School Census of April 1, 1945, lists 619 boys and 561 girls, a total of 1180 persons between the ages of five and twenty-one years in the town on that date. There were 761 enrolled in the schools of Kennebunk in the fall.

For another year our list of teacher changes is short. The changes at the six-year high school are mentioned in the principal's report. In the other schools, Mrs. Gladys Johnson was selected for the primary room at West Kennebunk, Mrs. Sarah Talbot replaced Mrs. Lillian Taylor who resigned as teacher of the fifth and sixth grades at the Cousens School, and Mrs. Evelyn White is now teaching the primary room at Lower Village. Mrs. Clarice Hodgkins began work there in the fall, but resigned when her husband was released from the service.

We were saddened by the loss of one of our school board members, Mr. Paul Russell. He was completing his fourth consecutive term of service and had served the town conscientiously and well. Mr. Russell's death is a decided loss to the town.

Still hindered by lack of labor and material, many repairs were not made last summer, but they should be cared for in the coming year.

Increased appropriations are asked for several accounts in which there are overdrafts. If the overdrafts are cleaned up the requests for succeeding years may not be so large.

Although the war is over, shortages still exist. Book orders are delayed, sometimes as much as four months. These difficulties are slowly being overcome, and we hope that next year will see even greater improvement.

Respectfully submitted,

JOHN S. CARVER.

REPORT OF HIGH SCHOOL PRINCIPAL

January 28, 1946.

Superintendent John S. Carver.

Dear Sir:

I hereby submit to you the report of the principal of Kennebunk High School.

It is especially gratifying to report the increased efficiency in Kennebunk High School, due in no small part to the return of our veterans, Mr. Verne Bodwell and Mr. Richard Morton. The loss of Mrs. Paul Whitten, however, so very active in dramatics and other extra-curricular activities as well as her classroom work, is keenly felt. The resignation of Mrs. Charles Prunier, teacher of Home Economics, will mean a serious interruption in the very fine work carried on in that department.

A change in the organization of the 7th grade has been made and has already given satisfactory results. From nearly complete departmentalization, transition has been made to a plan whereby the teachers give instruction in nearly all subjects to their home room groups except in the specialities, i.e., Shop, Home Economics, Music, Art, etc. This has resulted in more effective home room guidance, a better "carry-over" from one subject to another and more of a feeling of security among the 7th graders during their first year in a strange building. Because of this change and the cooperation and efficiency of the two new 7th grade teachers, Mrs. Robert Bartlett and Miss Elvira Birney, there have been few failures during the first semester in this grade.

In two subjects, increases have been made in the number of periods taught. In the 7th and 8th grade English, a change has been made from 4 to 6 periods a week for more efficient instruction. The freshman, sophomore, junior, and senior shop classes have been increased from 4 to 8 periods a week to comply with state requirements in that department.

During the past year Industrial Arts has been especially popular, with 76% of the boys of the upper four classes taking that subject. Part of this has been due to the interest in auto mechanics now being taught. As soon as three phase power is installed, the machine shop will be in full swing. A few more machines are needed, however, and may possibly be available under the government sale of surplus war materials. If so, the department should be in a position to take advantage of such a saving over machinery purchased directly from a factory or jobber. The teaching of electricity and radio, handicapped by lack of materials during the war, should now be developed into very worthwhile units.

Now that the war is over, it is to be expected that before the lapse of too much time, ideas for a war memorial will be suggested. None would be more commendable than plans for an athletic field to take care of football, baseball and track, thereby putting those sports on a paying basis. What is more fitting than a memorial to help promote the sports that our boys loved?

Many and serious problems are now confronting the great intellects of the world. One of the greatest is to make sure that civilization does not destroy itself before it has time to educate itself. Education must permeate the whole world if it is to progress. It is worthy of notice that in a three county

"World Order" contest held last fall the thinking of two Kennebunk High students led the way. The youth of today are the citizens of tomorrow and what Kennebunk is doing and will do in the immediate future for the education of its young people will determine what they will contribute to the constructive thinking so sorely needed in our world of tomorrow.

Respectfully submitted,

REPORT OF THE Electric Light Department

To the Light Department Commissioners:

Gross operating revenue of the Department for the year 1945 amounted to \$62,639.62. Add to the amount non-operating revenue, interest \$874.74 and net income from tenement house, West Kennebunk, \$108.72 and we have a grand total income of \$63,514.36. This amount exceeds the income of 1944 by \$5,363.87.

The sum of \$4,000.00 was charged to Depreciation Expense and the same amount credited to Depreciation Reserve making a total Reserve of \$41,773.55. This leaves the Department a net gain for the year \$12,550.05.

All outstanding bills have been paid as of December 31, 1945.

The first half of the year the Department worked under a restricted program but after Federal control ceased activities took on new life. We had many applications from those who desired service to extend our lines. While we were able to place orders without priorities it became increasingly difficult to get deliveries. Bare wire for rural lines seems to be hardest to get and insulators a close second.

Twenty-eight meters have been added to the lines while we have removed ten on account of fires and abandonment. We now have 1245 meters in active service.

We have enjoyed a very favorable run of water and increased production in our two power plants, 133,600 kwh. At the same time we have purchased of the Central Maine Power Co., 158,000 more kwh. than in 1944.

This may be seen in our comparative statement of production and disposition for the last three years listed below.

COMPARATIVE STATEMENT

Production—kilowatt-hours:	1945	1944	1943
Generated in Plant, Kennebunk	709,800	569,800	562,700
Generated in Plant, W. K'bunk	384,200	390,600	347,500
Purchased, Cent. Me. Pow. Co.	1,221,200	1,063,200	1,005,600
Total production and purchase	2,315,200	2,023,600	1,915,800

Sales and Output:

Street Lighting	117,119	87,483	63,267
Commercial Lighting & Power	1,452,119	1,308,094	1,186,912
Industrial and Small Power	377,429	312,050	351,177
Office and Plant Use	33,768	22,693	24,668
Line and Transformer Loss	334,765	293,280	289,776
Total Sales and Output	2,315,200	2,023,600	1,915,800

Transformer and line loss, as shown above, amounts to .1445% and is considered good for an extended distribution system as of Kennebunk.

There are only eleven sets of buildings located within reach of our existing lines that are not wired for service. One and one quarter miles of line extension would give service to seven new customers and make possible electricity for every house in Kennebunk and those who would logically come on our lines in North Kennebunkport.

It is evident that we have reached the place where we must look for new business only from the increased use of appliances and new buildings.

No doubt you are all aware of the improved street lighting service you have been receiving. When the original set up for service was arranged with the town the time of lighting was from sundown to midnight. Even moonlight nights did not call for lighting. The appropriation for this limited lighting was based on lamps that would approximate 40 watts.

For some time we have been using lamps sixty watt size. During the heavy bus travel to and from Portland and Kittery Navy Yard, arriving and departing as late as two and four o'clock in the morning, lights were kept on all night. Since peace was declared this schedule has not been changed.

Speaking of street lighting, maintenance of lamps is becoming a real problem. The wilful breaking of lamps is becoming a pastime with some. When a street lamp is so located as to interfere with a "petting party" the lamp must go and it does go. We are now making no effort to maintain lamps under such conditions.

Again some lamps are so located that it is not possible to handle the problem in this way. In and near the villages we have no end of trouble, lamps being often broken the day of renewal. We admit that a lamp presents an inviting target for a boy with a rifle to take a "shot" or a try at it with a

stone, but there is a point where it ceases to be funny and we have nearly reached that point. There have been times we have had to take these boys before the Judge and after good counsel to the boy and a promise of settlement of damages by the parents we have had no trouble for a time.

Two street lights so placed on the Playground as to light the newly constructed skating pond for the benefit of the children and others, were broken the first night of installation. This is the latest example of youthful rowdyism.

A new tar and gravel roof has been placed on the Goodall Mill and the Industrial Mill at West Kennebunk and cost paid for by the tenants as per lease.

One of the boilers at the town plant needed to be retubed and it has been done at a cost of \$1,293.77. This amount we charged to maintenance and did not take it from the Depreciation Reserve as might have been permissible.

All the Department property, industrial as well as plant, is well protected from loss by fire and Public and Employee's Liability insurance is carried to the extent good business practice would dictate.

Following these pages you will find a complete financial statement of resources, liabilities and other information pertinent to the Department's activities and standing.

Respectfully submitted,

OLIVER E. CURTIS,

Treasurer and Manager.

Auditor's Report

February 2, 1946.

To the Inhabitants of the Town of Kennebunk:

In accordance with the request of your municipal officers, we have completed an examination of the records and books of account of the

TOWN OF KENNEBUNK

for the municipal year ended December 31, 1945, and submit herewith the following exhibits and supporting schedules reflecting the results of the operations of your municipality for the year ended December 31, 1945, together with the financial condition of the town as at that date.

EXHIBIT

- A Balance Sheet
- B Cash Receipts and Disbursements
- C Statement of Departmental Operations
- D Analysis of Change in Net Surplus (Deficit)

SCHEDULE

- 1 Analysis of Changes in Uncollected Taxes
- 1a Summary of Uncollected Taxes
- 2 Analysis of Changes in Tax Liens and Deeds
- 2a Summary of Tax Liens and Deeds
- 3 Trust Funds

In the course of our examinations, we examined or tested the records of your town officials, but did not make a detailed audit of all transactions.

We are submitting herewith comments covering the following items contained in Exhibit "A":

CASH

The balance of \$55,699.39 was reconciled with the balance as reported by the depository bank, after giving consideration to outstanding checks.

As segregated on Exhibit "A", \$46,121.71 represents cash available for current use and \$9,577.68, the balance available for the special project covering the removal of the Boston and Maine bridges. Expenditures of \$222.32 charged to this special account covered legal fees of \$50.00 and engineering fees of \$172.32.

UNCOLLECTED TAXES

TAX LIENS AND DEEDS

Taxes committed to the Collector for the current year were verified and ascertained to have been properly accounted for, either in cash, abatements, or still outstanding on the Collector's records.

The tax lien and deed record was examined and all payments, as indicated by the Treasurer's receipts, were checked and found credited to the proper items.

No mail verification was made of any unpaid items.

ACCOUNTS RECEIVABLE

The detail as shown on Exhibit "A" were outstanding as at the close of the year. The rental item was collected subsequent to the year-end closing date.

TRUST FUNDS

Trust fund investments consisted of savings bank deposits which were found substantiated by bank books. As in past years interest earned has been allowed to accumulate, no withdrawals being made during the past municipal year.

BONDS PAYABLE

During the year serial maturities amounted to \$6,000, thereby reducing the bonded debt to \$48,000.

NET SURPLUS

Reference to Exhibit "D" discloses that the net gain from the current year's operations amounted to \$8,929.88. After providing an additional reserve of \$3,000 for uncollected taxes, the town closed its books with a Net Surplus of \$2,502.56 as compared with a Net Deficit of \$3,427.32 at the close of the previous municipal year.

Our appreciation is offered for the courtesy extended to us during the course of our examination.

Respectfully submitted,

MICHAEL A. NAPOLITANO CO.

REPORT OF HEALTH OFFICER

To the Selectmen and Voters of the Town of Kennebunk, the Health Officer submits the following report:

The past year the general health of the town has been good.

There have been two cases of scarlet fever and a few cases of other communicable diseases reported.

No typhoid cases reported.

The sanitary condition is good.

EDGAR S. HAWKES,
Health Officer.

REPORT OF MILK INSPECTOR

To the Citizens of Kennebunk:

Our milk supply is locally produced and continues to be above the state requirement by a wide margin. The customers have their choice of raw or pasteurized. The sanitary conditions under which it is produced are good.

The Federal inspectors have tested our stock for Bangs disease. The results were quite satisfactory. The testing will be continued.

ALBERT P. DAY,
Milk Inspector.

February 18, 1946.

BOARD OF ENGINEERS

There have been 97 alarms this year, 27 box and 70 still. Have purchased 200 feet of hose this year. An addition has also been put on the engine house. A pump was bought for the forestry unit.

A great deal of hose should be bought this coming year.

Booster brakes have been purchased for the small truck.

Respectfully submitted,

CHARLES H. CURRIER,
Chief Engineer.

Ralph O. Evans,
Sidney E. Towne,
Clyde E. Rand,
Asst. Engineers.
